INSTRUCTIONS FOR HELIUM TANKS

- Latex Balloons stay up for 8-10hrs indoors and up to 6-8hrs outdoors. Weather conditions may impact these times.
- Put the nozzle on when you start, and take it off as soon as you finish, do not leave it on.
- After screwing nozzle on, turn the valve on, gas comes out only when you bend the nozzle.
- Make sure you put the Balloon at least $\frac{3}{4}$ over the nozzle and put your hand all the way around the Balloon, so you don't let any gas escape.
- Only fill the Balloon to 30 cm in size, do not overfill Balloons or Balloons will pop and bottle will not fill the number of recommended Balloons.
- Take the nozzle off as soon as you finish, turn valve off, release gas and unscrew nozzle. Nozzle will not come off until you release the gas.
- Do not drop nozzle, if nozzle drops it will break straight away. If it results in the gas leaking out we will charge you \$80. Nozzle can also break by leaving the valve on for more than 24 hrs. If not using the bottle, turn valve off.
- Read and follow instructions on side of the bottle, use and care of bottle and your guests is your responsibility and duty of care.
- Do not open valve until nozzle is completely screwed in, as the gas will release at a very high pressure and can be very dangerous.
- Helium bottle can be rented only for 4 days, failure to return will result in Discount Party Warehouse charging your Mastercard or Visa credit card (DEBIT card or Amex NOT accepted) - \$500 for a 40 Balloon bottle, \$750 for a 100 Balloon, \$1000 for a 300 Balloon bottle.
- Unfortunately we are not the manufacturer of the Balloons, only the retailer. Any faulty Balloons can be brought back to us, if deemed faulty, we may exchange or refund. We cannot deliver a new Balloon to your party.

PRICES SUBJECT TO CHANGE WITHOUT NOTICE

This catalogue is a guide only and prices may vary depending on the package selected and job size/urgency.
